To the Public.

THE SENTINEL, having double the circulation IN THE CITY, and more than treble OUT OF IT, of any other paper here, renders it far the cheapest and most desirable medium in Milwaukee for all classes of Advertisements.

EVERY BUSINESS MAN who consults his own interest, will avail himself of the columns of THE DAILY SENTINEL,—especially when he can do so at the same prices charged by other papers, and secure more than double the advantage of circulation.

This is no boast, but EVERY WORD TRUE.

News Digest.

By the arrival of the *Arabia*, we have foreign news of the 17th inst. The political intelligence is unimportant. Breadstuffs are reported quiet.

The Indians are again becoming very troublesome to the frontier settlements in New Mexico. Almost every arrival from that Territory bring accounts of murders and thefts, committed by roving bands of red skins.

Hon. JOHN C. BRECKINRIDGE has written a letter contradicting the rumor of his proposed withdrawal from the Presidential contest.

Speaker PENNINGTON, declines a re-nomination for Congress.

L. S. HAMMOND's Banking House at Cape Vincent, N. Y., was entered by buglars Sunday morning, and $2,000 in currency and $20,000 in notes stolen.

A number of items of minor interest will be found in our telegraph columns.

Republicans, Attend !

The Milwaukee Central Republican Club meet at Headquarters, in the Albany building, Michigan street, at half past seven o'clock *to night*, on business of importance.

All members of the Club, as well as all who are desirous of joining, are urgently invited to attend. Let us be "up and doing," and show what hard work can do even in Milwaukee.

The Two-Faced Democracy.

In New York, the DOUGLAS men, turning their backs upon their BRECKINRIDGE brethren, have joined hands with the Know-Nothings and hope, by their help, to carry the Empire State. In the adjoining State of New Jersey, the BRECKINRIDGE men have made common cause with the Know-Nothings, while the followers of DOUGLAS are "left out in the wet." Thus, both factions of the Sham Democracy have shown their readiness to fuse with the Know-Nnothings, for the sake of "the spoils." Who believes that such shameless abandonment of principle can be endorsed by the PEOPLE.

THE DOUGLAS DEMONSTRATION LAST WEEK.—The *News* "still maintains" that there were "15,000 people present," at the DOUGLAS demonstration on Market Square, last week; and that the procession mustered "3,000 torches," and was "25 minutes in passing any given point." It also arraigns the Republican press for "mendacity," in regard to the size and spirit of the meeting, and again pronounces it "the largest and most imposing political meeting ever held in Milwaukee." Very well; if the *News* chooses to adhere to a statement which every one of its readers knows to be absurdly false, so be it. If it thinks that the cause of Mr. DOUGLAS can be helped by such palpable fabrications, *we* have no objections to its making the experiment. The DOUGLAS demonstration, last week, though quite respectable as to size, and with a tolerable show of enthusiasm, did not compare with either the Republican, or Democratic mass meetings here, in 1856, and was inferior to the Republican Ratification Meeting, held on the evening that Mr. POTTER was re-nominated for Congress. But the *News* is entirely welcome to *assert* the contrary, if so disposed.

BRECKINRIDGE WILL NOT WITHDRAW.—The DOUGLAS papers are publishing extensively a *bogus* rumor that Mr. BRECKINRIDGE intended to withdraw from the canvass. To this, the Louisville *Courier*, the organ of Mr. BRECKINRIDGE, responds thus tartly and emphatically:

> "The world is dreadfully given to lying. Sometimes we are almost persuaded of the truth of the doctrine of total depravity. *
>
> "Mr. Breckinridge has not called a consultation of his friends for any such purpose, nor for any purpose; he has not thought of withdrawing, nor have any of his friends entertained such an idea; he will stand by the principles of his platform, the Constitution, the Union, and the Equality of the States; and his best informed and most reliable friends believe he will be the next President of the United States, to which end every true friend of the Union, and real enemy of Black Republicanism, will work with a right good will until the contest is decided, and the fate of the country fixed !"

PERSONAL.—Governor RANDALL paid a flying visit to our city, yesterday. He was invited to remain and participate in the dedication of the Union Republican Wigwam in the Sixth Ward last evening, and would have done so, but that he had made a previous engagement in the country. The Governor reports the State as all "sound," the canvass making good progress, and the majority for LINCOLN and LIBERTY at from ten to fifteen thousand.

CENSUS ITEMS.—We are indebted to P. H. Smith, Esq., of Plymouth, one of the census takers in this county, for the following abstract of the census returns from the Second Assembly District in this county. The exhibit, as to population, agriculture, etc., is decidedly gratifying and encouraging. Judging from this District, the population of this county is about 40,000. The census of 1850 gave us a population of only 8,379. This is an increase which will, unquestionably, be not only satisfactory but gratifying to all interested in the welfare of our county.

The number of inhabitants in the different towns in the district is as follows:

Plymouth	2,116
Greenbush	1,653
Rhine	1,359
Russell	558
Herman	1,930
Sheboygan Falls, town	1,323
" " village	955
Total	10,420
Whole number of families in the district that raised over $100 worth per year	1,866
Number of houses in the district	1,990
" families	1,948
" deaths	94
" churches	14
" common schools	48
" manufacturing establishments that manufacture over $500 worth per year	90
Number who cannot read or write, of which number 96 are foreigners and 12 Americans	108

FATAL ACCIDENT.—On the 23d of July, as two men, named Jonathan Roe and Frank Daniels, fishermen, living at Detroit Harbor, near the Door, were going from the shore to a vessel anchored out in the Harbor, in a sail boat, they, it is supposed, were struck by a squall and capsized. Both men were drowned, and the bodies found the next day. Frank was a single man—Roe, it is sad to relate, leaves behind a wife and family to whom his loss is severe—we commend them to the care and consolation of the Islanders in the hour of their sad bereavement.

Mr. Seward before the Harper's Ferry Investigating Committee.

From the Boston Journal.

We have received a copy of the official report of the testimony taken before the Senate Investigating Committee on the Harper's Ferry invasion, of which Committee Senator Mason was Chairman. It is a volume of 225 pages, and contains much interesting matter. We observe that the last testimony given is that of the Hon. Wm. H. Seward, who had been charged with direct complicity with John Brown's invasion, partly on the basis of the Forbes' letter. As we believe the press has not noticed the fact that Mr. Seward was called before the Committee, we think it worth while to give the substance of his testimony. Referring to Forbes' letter, he said the writer called upon him in the spring of 1858, with a long story of great personal distress, involving himself and family. It was very incoherent, and he thought his visitor was a "a man of an unsound or very much disturbed mind." But he allowed him to go on with his experiences in Kansas, to see if he had any claim to charity.—But when he reached his account of his difficulties with John Brown, and his letter to persons in New England (the "humanitarians") who had not assisted him as he claimed, Mr. Seward proceeds as follows—which is the material part of his evidence, so far as public interest is concerned.

"At that stage of the conversation, I interposed and arrested his statement, telling him (what was true) that from the beginning of the difficulties about Kansas until then, it seemed to me that everybody who had anything to do with the Territory, came to me for instruction and advice how to proceed; and that from the beginning I had determined that I would have no consultations, and confer with nobody, give no advice on the subject of what was done or to be done in Kansas, because it was inconsistent with the relations that I maintained here, where I was to act as Senator upon what was done in Kansas, and advise what ought to be done by Congress; that I had listened to him so far in violation of that rule, simply because he seemed in deep distress, and I was touched with the story he told me about his family, and was waiting to see whether he would state any grounds on which I could give him some money; that he had failed to do so, and that there the conversation must end; that he must leave me and see me no more. He went away.

Question. I understand, then, from your statement, that he made no reference to any purpose of Brown to make any attack upon any of the slave States, except as you have given it in Kansas?

Answer. None whatever. On the contrary, until I read in Europe of John Brown's demonstration at Harper's Ferry, I had no more idea of an invasion by John Brown at that place, than I had of one by you or myself. The thing was one of those occurrences which, as I suppose, happen often to all persons in our situation; certainly they do in mine. All kinds of erratic and strange persons call on me with all manner of strange communications and applications. This was one of them, and it passed out of my memory without having attached to it the least idea of any importance. Forbes told me nothing of any cotton speculation by any humanitarians or any body else. I state this in answer to a statement contained in his published letter."

The Congressional Apportionment under the New Census.

From the Boston Advertiser.

The aggregate number of representatives in Congress is not fixed by the Constitution, which simply requires that the number of representatives shall not exceed 1 for every 30,000 inhabitants, and that each State shall have at least one representative. The number of representatives, in fact, has varied under different apportionments; but by act of Congress in 1850, it was fixed at 233, and that will be the number to control the next apportionment. The present actual number of representatives is four larger, namely 237, because since the apportionment of 1850, one additional representative has been allowed to California, two to Minnesota, and one to Oregon. But this temporary increase will cease with the 37th Congress, for which the elections are made this fall, and the apportionment under the new census will restore the number to 233.

The aggregate representative population, as is well known, is ascertained, in the words of the Constitution, "by adding to the whole number of free persons (including those bound to service for a term of years, and excluding Indians not taxed(—three-fifths of all other persons." In other words, the aggregate population of the whole Union, slaves included, is diminished by a deduction of two fifths of the number of slaves. In '50, the aggregate free population was 19,847,601; the slaves were 3,200,634, and the representative population was accordingly 21,767,673. This number, divided by 232, gave the ratio 93,423, already mentioned. It is generally expected that the aggregate population under the present census will be found to have increased to thirty or thirty-three millions, for the purpose of the apportionment, making the constitutional deduction for slaves, it will not probably exceed 30,000,000. Dividing this by 233, we shall have about 128,-500 as the ratio for the representative.

Prof. Wm. H. C. Bartlett on the Great Meteor—the Meteor to Call again.

WEST POINT, Aug. 10.

EDS. EVENING POST:—It was hoped that ere this enough data would have been had from remote stations to lead to some definite and accurate estimate of the path and destination of this remarkable body, certainly one of the most curious and interesting of the kind on record. But in this our hopes have been but partially realized. The suddenness of its appearance took all by surprise, and no one seemed prepared to mark its course on the celestial vault; and while there is a general agreement in the main, as regards its physical aspect, there is the utmost vagueness and want of agreement in all the elements of computation. A writer from Ithaca, N. Y., says it came in sight like a ball of fire, as large as the moon, of dull yellow color, enveloped in yellow and blue flames while on the meridian; and as it disappeared to the east, seemed like two bodies, separate and distinct. And as the same description comes from places 150 miles west and 300 miles east, as well as from the north and south, this duplication is attributed not to a real separation into fragments, but to its peculiar shape and the shape of its tails or trains.

All from the west and east, north and south, describe it alike. Selecting from the many observations at hand those which seem most reliable—more, however, on account of the distance between the stations they were made from than any intrinsic merit of the observations themselves—the latitude of the meteor could not have been less than 60 to 70 miles, and its velocity, in reference to the earth's, certainly as much as seventeen miles a second. Its diameter was at least half a mile, and probably more. The distance from the earth's centre, relative velocity, weight, and resistance in an atmosphere attenuated by an altitude of sixty miles, indicate so strongly, when tested by the usual methods of physical astronomy, an unclosed or hyperbolic orbit about the earth, as to make it certain that the principal mass passed out of the atmosphere to produce a modified path about the sun. And if the direction, impressed upon its course by the terrestial action, have not been such as to throw it against that body, it must return again at some future epoch, of which the distance from that of its recent visit is already determined, though unknown to us, by the relation which its orbital periodic time bears to our sidereal year. We must not be surprised should we see it again.

Yours respectfully,
WM H. C. BARTLETT.

SUICIDE OF A SENSITIVE YOUTH.—At Blairstown, N. J., a young man named Hulme killed himself because the principal of a boarding school found a love-letter addressed by him to one of the female pupils, and read it aloud. A letter says:

"The young man, it seems, had taken a fancy to, and had been corresponding with a young lady in or near Blairstown. The principal of the school, Mr. Johnson, having found this out, forbade the correspondence, and even wrote himself to the young lady forbidding her to send the young man any more letters. She, however, continued to write, and it happened, a day or two before the fatal occurrence, that the young man chanced to drop one of her letters, which letter was found and carried to Johnson. Instead of returning the letter to the young man, with such kind admonition as his good judgment ought to have suggested, he had it publicly read before the whole school, which so wrought upon the young man's mind that he at once determined to put an end to his own existence. The shame, as he thought it, of such public exposure was more than he was able to bear."

The City Finances.

The Comptroller, Mr. KUEHN, has submitted the following official report to the Common Council. It shows that our city expenditures, for the past two, or three years, have been largely in excess of the revenue; and demonstrates the necessity of rigid economy and unwearied vigilance, on the part of the constituted authorities, to restore the credit and meet the accruing liabilities of our city:

To the Honorable the Mayor and the Common Council:—

GENTLEMEN—In addition to the general statement of the municipal indebtedness of city, presented to your honorable body, July 24th last, I would herewith respectfully submit the following estimate of expenses for the fiscal year of 1860; chargeable to the general city fund. I have made the estimate as light as possible, but you will easily perceive that only by the strictest economy it will be found possible to keep within the limits of $60,000, which by law the Common Council are authorized to levy for general city purposes. It will therefore be indispensably necessary not to allow to contract any debts which would have to pass over to the next year unpaid, and therefore avoid a practice which has heretofore proved so disastrous and has created a floating indebtedness of more than $180,000.

I have also appended a tabular statement showing the expenses incurred during the fiscal, 1859, amounting to	95,617,57
The amount paid in city orders in 1859, for work contracted in 1857 and 1858	85,320,28
Also the orders issued since May 1860, for work, &c., under contract of 1859	10,717,52
Making in the aggregate	$191,655,05
Whole of the amount levied for general city purposes was for 1859	58,260,81
Leaving a balance unprovided for of	$133,424,54
The expenses incurred for general city purposes for 1860, from April 17th to the present date, amount to	9,058,28

These figures, in connection with the fact that the finishing of the school houses, bridges, harbor and other improvements, was to be paid for in city orders, for which no provision was made by levying taxes, will sufficiently explain some of the principal reasons of our accumulated floating debt, and the large amount of outstanding city orders, and show the imperative necessity of practicing, hereafter, the strictest economy to extricate the city gradually from its financial embarrassments.

Respectfully submitted,
FERD KUEHN, Compt.
Milwaukee, August 6, 1860.

MADAME ANNA BISHOP.—This distinguished lady, after an absence of nearly nine years, is announced in another column to give two of her grand vocal, and instrumental Concerts, assisted by other artists of celebrity. Her concerts at GARDINER'S Hall, in the fall of 1851, are no doubt fresh in the memories of many of our citizens, who will rejoice at the thought of being able to hear her again.

The New Orleans Daily *Commercial Bulletin*, in speaking of her farewell concert in that city, says:

"The largest and most fashionable audience that ever assembled in Odd Fellows Hall, greeted Madame Bishop last evening. The most intense satisfaction was expressed by all who were present; and in truth, it was a rare treat. As a vocalist, save perhaps, Jenny Lind, she has no superiors, and but one or two equals. We had the pleasure of seeing and hearing her, a few years ago, in the city of Detroit, and must say that Time's rude hand has passed lightly o'er her fair brow, for she looks more beautiful than ever, and her voice has lost none of its wonderful clearness and compass."

SCHOOL FOR YOUNG LADIES AT WAUWATOSA.—We hear that our neighbors of Wauwatosa have some idea of starting a school for young ladies in that fine little town, and placing it in charge of the Rev. D. W. GOLFORD, formerly of Oshkosh. There is no healthier or better place for such a school in our State, and Mr. GOLFORD is abundantly qualified to take charge of it. We hope that the enterprise will prove successful.

TRIAL OF ROBERT P. LYNCH.

HIS HON. JUDGE MALLORY PRESIDING.

SIXTH DAY.

The first witness called on the part of the defense was P. Kelly, who being sworn testified as follows:

P. Kelly sworn.

Q. Where do you reside?

A. In Second Ward.

Q. Did you serve on a jury in 1859 as to the opening of 16th street, with Messrs. Dale, McGrath and others?

A. Yes, it was in the Ninth Ward.

Q. Did you subsequently receive a city order for that service?

A. Yes, sir; I got two or three small orders beside this from Mr. Lynch at the same time; when I tried to sell them I found one of them blank and took it back to have it filled up; the blank one was the one I received for this service.

Q. What was the amount of that order as it was subsequently filled up by defendant?

A. Five dollars

Q. When you first received it in blank was it signed by the Mayor?

A. Yes sir.

Q. Have you had any conversation with Mr. Page regarding th's matter?

A. Yes, sir; Mr. Page met me in the street——

Mr. Ryan.—Well, you were not asked to tell what be said.

Mr. Carpenter.—Have you had any conversation with him about this order?

A. No, sir.

Q. What was the number of the blank order?

A. I think it was No. 366; I am not positive.

Cross-examined.—Q. What part of it was blank?

A. All except the number.

Q. When did that happen?

A. About last September, as near as I can judge.

Q. Did you sign a receipt upon the stub at the time?

A. Yes, sir; I had three fours and a five in orders for the same service.

Q. In how many cases of opening streets? Objected to; objection overruled.

A. I did not keep count of the ——

Q. What were the numbers of the other orders?

A. I did not look.

Q. How are you able to recollect that that particular order was No. 366?

A. I took it back and met Mr. Whitehead and he said it was some of their carelessness, and then I noticed it.

Q. Has there been any point of time since you received that order that you did not remember the number of it?

A. When I took it back I scrutinized it; the others were for four dollars; I think there were three of them.

Q. What other streets were there?

Objected to and objection overruled.

A. I think there was one in the Sixth Ward, and others; I think the services were rendered very late in the fall; I think it was quite cold at the opening of one street; it was in the fall of the year that we sat in 16th st; that was quite a warm day.

Q. Did the jury sit at the opening of any other streets at the same time?

Objected to and objection overruled.

A. I don't think I could serve upon two at the same time; don't recollect that I did upon the same day.

Q. How do you know that the five dollar order in blank was for services in opening 16th street?

A. I had no other orders than for any services except opening streets; I know that this was for five dollars, because it was for making report; the others were for four dollars; this was five dollars, one dollar for report; I made the report in opening 16th street.

Q. Did you at the same time make any other report, or on the same day?

Mr. Carpenter—To that we object.

Objection overruled.

A. Don't recollect that I did.

Q. Did you at the same time receive another order for making a report?

A. Don't recollect that I did.

Q. Will you tell the amounts?

A. One was for $5, the others were for $5; I knew that the order was $5, because it was blank; that was what called my attention to it; the whole body was left blank: it was numbered on the left hand side and signed H. L. Page, mayor.

Q. At the time you received that order, did you not receive order 351?

A. Yes, sir, I don't know but I did.

Q. Is not that the very order you received?

A. I could not swear that it is or is not.

Q. Is that your writing on the back?

A. Yes sir.

Q. Is this the order you received for making the report of opening 16th street?

A. I could not say; that No. was, I think, 366; this is 351; have had order 350 some time or other; could not say what time; think it was about September; I think I took three $4 orders; can't be certain whether I took three $5 orders or not.

Q. If you are not certain that you did not receive more than one $5 order at one time, I ask to know how you knew that the blank order was for making report of 16th st.

A. I answered that before; the other orders were for $4; for making report we generally had $1 more.

Q. What did you receive that other $5 order (351) for?

Objected to and objection overruled.

A. I think it was for opening some street; what one I could not state.

Q. Which of these two orders is for opening 16th street? (366 and 351)

[The orders were shown with the numbers covered.]

A. I could not tell.

Q. Did you ever examine the auditing book for the number of the order you received for opening 16th street?

A. No, sir; nor the stub book; when I returned with the order to Lynch, I said "look here;" he took his pen and filled it up without saying a word

Q. Are you positive you did not receive the two orders I have shown you at the same time?

A. No sir; I might have done so.

Q. Who were the jurors who acted with you in opening 16th street?

A. I don't recollect without referring to the book.

Q. Do you recollect acting as juror in regard to opening and extending Pleasant st., in the First Ward?

A. Yes, I think it was in the Fall; it was a cold day, it snowed; I could not tell who acted with me; think Lindsey Ward was one; D. Kennedy was one on the jury.

Q. Did you make a report of that matter?

A. Yes, sir.

Q. What year was that?

A. 1859.

Q. How much did you receive for making the report regarding Pleasant street?

Mr. Carpenter—I object to that, if the Court please.

Overruled and defence excepted.

A. It might be $5 and may be $6, but not over or under; could not say positively if it was $5.

Q. Is that the report of Pleasant street, (handing him a paper.)

A. A portion of it.

Q. Is that the one of 16th street, (handing him another)

A. It is my handwriting.

Q. Do you know whether the order you received in blank was for report of 6th or 16th st.?

A. It was for 16th st.

Q. How soon after you sat as a juror did you make the report?

Objected to and objection overruled.

A. I could not tell.

Q. How was it with regard to Sixteenth street?

A. Probably that day.

Q. How was it with Pleasant street?

A. It might be that evening or the next day.

Q. Do you recollect hearing of defendant's arrest?

A. I heard it by report.

Q. Do you recollect speaking with anybody regarding the order you received in blank soon after this?

A. I do; with Mr. Phelps and Mr. Page; did not tell Mr. Page I could not recollect about the blank order.

Q. Do you recollect that Mr. Page inquired about the blank and you said you could not recollect?

A. No, sir, I do not.

A. Do you recollect afterwards telling Mr. Page, some few weeks after defendant was arrested, that the portion of the order stating for what it was allowed, was in blank, but that the amount of the order was filled up?

A. Page remasked me that question.

Q. Did you ever say so to him?

A. No, sir. He asked me what I meant by blank, I told him I thought I was not so green as to answer him at that time, but I had received orders that were blank.

Q. Did you tell Page in substance that the part of the order telling for what it was allowed for, was filled up, but that the amount of the order was in blank?

Objected to and overruled.

A. I did not.

Q. Did you ever at any time say anything to that effect to Mr. Page?

A. This was the only time Page ever spoke to me on the subject, and asked me what I meant by blank; I told him to take any paper, bank notes, &c, and fill up the blank places, and that was what I meant by filling up, and any school boy could understand that.

Q. There are several places to be filled up in city orders, are there not?

A. I expect there is.

Q. Did you tell Mr. Page which of those were not filled up by your order?

A. No, sir; I did not tell him which were filled up.

Q. Did you distinguish to him in any way blanks which were filled up and which were not?

A. When he asked me what I meant by filling up blanks, I thought he must think me rather soft, and I told him it was filling up the blank of any order.

Q. What do you mean by saying that you thought Page thought you must be soft?

(Objected to and overruled.)

A. I thought he must think me soft, or else I thought him very soft to ask me such a question, when he knew that I knew well enough what filling up a blank meant.

Q. Did you state to Mr. Page in substance that the amount for which that order was issued, was filled up?

A. No such thing; I answered that once before.

J. L. Hathaway sworn—Q. Were you sometime Comptroller of this city?

A. Yes, sir; in 1858-59; immediately preceding the time Mr. Page was Mayor.

Q. When you went out of office were there any accounts audited by you during your term for which orders were not issued during your term; if so, how many and to what amount?

Objected to, and overruled.

A. I think not; I might tell more positively by reference to the books.

Q. Look at them.

A. So far as accounts chargeable to the general city fund were concerned, I think there were none. The ward books are not here.

Q. Speaking from your recollection, were there any ward accounts?

A. I think not.

Cross-examined.

Q. Do you know, are you certain, that for all accounts audited by you, orders were issued and filled up by Mr. Prentiss during his term?

A. When I audited accounts I sent them up to the Clerk; he issued warrants, then I countersigned them; then we put the No on our audited account; this was always done; I always knew what order was issued for a certain account.

Q. Do you know that those orders were actually signed and issued?

A. I did not countersign them until after they were signed by the Mayor; we never varied from the practice I think.

Q. Do you say that for all accounts audited by you, during your term, you countersigned orders?

A. Myself or my deputy did; they were countersigned in my office.

Q. Were there not orders issued during your term that were not countersigned at all?

A. Yes, sir; orders did not require to be countersigned; all warrants were.

Q. Do you recollect whether the papers issued to Sims in his contract were orders or warrants?

A. I do not.

Elias Sims sworn—Q. Do you recollect some orders in the order book of the city, signed by Mr. Page to you and subsequently cancelled?

A. I saw some there.

Q. Are those the ones? (showing him a book)

A. Yes, sir.

Q. There are thirty-two; have you ever at any time received from the city, orders or warrants in place of these concelled?

A. I suppose I did for the same indebtedness; in July I sent my bill to the Common Council; there were no orders corresponding in number and amount issued to me in place of those particular orders. In July the thing was settled up on a final settlement and I got my pay; but there were new warrants issued in place of those cancelled orders.

Q. Were you present when those orders were cancelled?

A. No, sir.

Q. Where did you first see those orders signed to you?

A. In the Clerk's office; I saw them and spoke to the defendant about them?

Mr. Carpenter.—We offer to show that in May, 1851, the witness discovered these orders signed by Mayor Page; that he then wanted them delivered to him; that this was in Lynch's office; that Lynch then informed him that Page had signed those orders by mistake when the book had been sent down to his office to sign another order; and we ask the following question: Did you request Lynch to deliver those orders to you, and if so what did Lynch give as a reason for not doing so?

M. Ryan objected, and objection was sustained. Defendant excepted.

Cross-examination waived.

Mr. Hathaway re-called by prosecution.

Q. Was the account for which these Sims orders were made audited or allowed during your term of office and the orders not issued until after your term?

Objected to and overruled. Defendant excepted.

A. About the orders being actually issued I can't say. I know nothing of the account except what appears in these books.

Mr. Carpenter: Then you needn't say anything about it.

Adjourned until 2 p. m.

AFTERNOON SESSION.

Mr. Page called for the defence.—Q. I call your attention to the order of $750 and ask if you destroyed the stub of that order when you destroyed the note?

A. No, I did not.

Q. Was it destroyed in your presence?

A. I think it was.

Q. Was this after the Investigating Committee had begun their work?

A. Immediately after.

Q. Was the stub destroyed by your direction?

A. Not by my direction or advice.

Q. But with your knowledge?

A. Yes, I think with my knowledge.

Q. I would ask you if that stub was in this book (order book No. 2)?

A. I could not tell which book it was in; my impression is that it was either the last or next to the last in the book.

Q. You mean by that the last one that was signed in the book?

A. Yes sir.

Q. Did you burn the order?

A. I did.

Q. Were not the order and stub burned together?

A. I could not say what was done with the stub.

Mr. Ryan: Who destroyed the stub?

A. Mr. Gardiner or Mr. Lynch, or both.

Q. Was the stub receipted?

A. I think so.

Q. What did you say about the destruction of the stub?

(Objected to; overruled.)

A. I suggested that the stub be cancelled, instead of tearing it out.

Q. State all about the destruction of the stub?

A. At the time the order was destroyed Mr. Gardiner suggested—

Mr. Carpenter: We object to his stating what Gardiner said.

Court: You may state what occurred, but not what what Mr. Gardiner said.

A. There was only one stub destroyed—no leaf torn out.

Mr. Ryan—Well, go on and tell all about the destruction of the stub.

Witness—If I suppress what was said, I have told all that was done.

Mr. Ryan—Well, tell us all about it.

Witness—I stated in my examination that the order was destroyed for the reasons assigned before; then Mr. Gardiner wanted to destroy the stub, and I suggested to him that the stub should be cancelled; and defendant then said there would be no harm done to any one if the stub was destroyed, and they did destroy it.

Mr. Ryan—Who destroyed it?

A. I am not certain whether Mr. Gardiner or Mr. Lynch—one or the other of them.

Mr. Carpenter—Did you ever communicate any of those facts to the Committee of Investigation?

A. No, sir. I didn't think it was necessary.

Mr. Hayden called—Q. Were you a member of the Common Council last year?

A. I was.

Q. And member of the Finance Committee.

A. Yes, sir.

Q. Were you, during Mr. Page's administration, at any time in his office when he was signing orders?

A. I was.

Q. More than once?

A. I think I was.

Q. You saw him sign orders?

A. I have.

Q. Have you seen him sign orders without examining the stubs or vouchers?

(Objected to.)

Q. Have you ever seen Mr. Page sign orders in blanks?

A. I think I have.

Q. When?

A. I could not say when. It was during the summer or fall of 1859.

Q. How often?

A. I could not say.

Q. How many orders?

A. At the time I speak of I think there was a page on the book.

Q. Were they all filled up?

A. I cannot say.

Q. Was all the filling up left blank?

A. I think it was.

Q. Where were you?

A. In the office.

Q. Well where in reference to the books?

A. I think I was standing at the end of the desk.

Q. Who were they to?

A. Could not say; my recollection is now that the amounts were on the order; would not be positive.

Q. Were the stubs filled up?

A. Couldn't say.

Q. Were the orders in the book attached to the stubs when he signed them?

A. They were.

Q. Were the names of the persons to whom the orders were to be payable written in?

A. No recollection.

Q. Have you any recollection that they were not written in?

A. I think they were not.

Q. Will you tell me whether they were or not?

A. I am inclined to think they were not.

Q. Is that a matter of supposition or memory?

A. A matter of memory.

Q. Was the fund from which the amounts were payable; was that left or was it filled?

A. I have a pretty distinct recollection that it was not.

Q. How many orders did Mr. Page sign while you were there?

A. Could not say how many.

Q. Was any body by?

A. There were persons in the office but who, I do not now recollect distinctly.

Q. Did Mr. Page at that time sign more than one page of orders?

A. My impression is that he did.

Q. Did he sign as many as ten or a dozen pages.

A. Couldn't say

Q. Did you notice that any of the other pages were in blank?

A. Didn't notice particularly.

Q. Was the page of orders he signed the first page?

A. I think not.

Q. Was it the last?

A. I think not.

Q. What called your attention to that particular?

A. I think he spoke to me and I remarked that that was a loose way of doing business.

Q. Who was it that that spoke to you?

A. Don't recollect.

Q. Were the orders signed at the time by the clerk?

A. Don't recollect.

Q. Were they countersigned by the comptroller?

A. They were not.

Q. Were they numbered?

A. Couldn't say as to that.

Q. What was done with those orders at that time?

A. They were there when I left the room.

Q. How many orders did you see him sign?

A. I think not more than one page.

Q. Was there any date to those orders?

A. Could not say.

B. How long were you observing Mr. Page?

A. I think about a couple of minutes.

Q. Did you see him sign all of those orders?

A. I think I did.

Q. Where were you?

A. Could not say whether I was at the end or side of the desk.

Q. Did you make any remarks to Mr. Page about the matter?

A. I think I did, and he said he was going East, and the amounts were for poor men.

Q. What did Mr. Page say to you?

A. No recollection of his saying anything more.

Q. Did he state this as a reason for signing them in blanks; did he explain to you how the orders might be filled up and signed before he went away?

A. No recollection.

(Mr. Page here suggested one or two questions to the counsel, and Mr. Carpenter made an objection to it which led to considerable unimportant argument)

Q. Wasn't the fact first shown, or pointed out by Mr. Page himself, to Mr. Lynch, that some of the orders were in blanks?

(Objected to.)

Mr. Carpenter: We have proved that orders were signed in blanks and there we stop.

Overruled.

A. I could not say at present.

Q. How are you able to recollect those were not city orders?

A. From the face of the orders.

Q. Had there been a meeting of the council the day before?

A. Could not say.

Q. Do you know whether the orders which you saw him signing were with or without appropriations.

A. Could not say.

Here Mr. Rogers was sent for and for two hours the court waited for his appearance, at the end of which time an adjournment took place to this morning.

Mr. Carpenter said that the summing up would occupy a portion of to-day.

Republican County Organization.

EDITOR OF THE SENTINEL:—The report of the meeting of Republicans at the Headquarters, published in your paper of Thursday last, was incorrect, and gives an erroneous idea of the object of the meeting, and scope of the proceedings. I will point out one or two matters that have given rise to some misunderstanding.

The meeting was of Republicans acting in a private capacity for the purpose or organizing a system of efficient labor in this county in behalf of the party, and not a meeting of "the Republicans of the county" for an official organization of the party. The committee is intended to act for the public good, but in a private and not in an official manner.—The meeting assumes no general authority, and the committee will assume none, unless it should become indispensably necessary for want of the action of any other body. The committee is to work for the party, and does not wish to take control of the party.

The names of the committee in the report are not quite right; among other things, the members for the towns of Granville and Milwaukee being exchanged, and the committee is requested to meet at the head-quarters on Saturday next at 2 P. M., and not merely "to visit them." Not having the report now before me, I cannot specify the other inaccuracies which I observed.

A REPUBLICAN WHO WAS PRESENT.
Milwaukee, Aug. 18th, 1860.

MEETING OF TOURISTS.—At a meeting of the passengers on board the steamer *Lady Elgin*, on her return trip from Lake Superior to Chicago, held August 13th, 1860, Professor N. PORTER, of Yale College, was appointed Chairman, and E. POWELL, of Chicago, Secretary. It was unanimously

Resolved, That it gives us great pleasure to express to Capt. Jack Wilson and the other officers of the *Lady Elgin* our grateful appreciation of their uniform courtesy and thoughtful attention to us all through our delightful trip; and we shall esteem it a pleasure to recommend this steamer to such of our friends as may intend to make this charming and healthful excursion.

It was also resolved that a copy of this resolution to Capt. WILSON, and that it be published in the papers of Chicago, Detroit and Milwaukee.

CONCERT.—Madame ANNA BISHOP, the famous cantatrice, will sing in Milwaukee for two nights only. Her first concert is to be given on Thursday night at the Academy. She will be assisted by F. RUDOLPHSEN and T. A. HOGAN, both artists of world-wide favor.

FOR DETROIT, CLEVELAND AND BUFFALO.—The upper cabin screw steamer *Dacotah*, Capt. PEASE, leaves the Milwaukee and Mississippi R. R. Dock to-day at 5 P. M., for the above and intermediate ports. For passage apply at the office, foot of East Water street. GLIFFIN & FLINT, Agents.

CITY AUCTION ROOM.—Now is the time to send in your goods and furniture to sell. The harvest is past, the summer is near ended, and all and every one expects to have plenty of money to purchase all they want. We expect to see our city crowded from morning until evening with our various country friends. Our merchants will have more business than they can attend do; already, they are now so busy that it is as much as you can do to get them to say "Jack Robinson." Horse railroads will be overrun with travel visiting that beautiful part of our city, the First Ward, where LOCKWOOD & GLIDDEN's addition is situated. Great movements are expected in real estate. Capitalists from abroad will be pouring in upon us by hundreds; so keep up bright faces and do not despair, Milwaukee is going to see grand times this fall; and as every person knows our fall, it is always beautiful, and generally we do more in real estate and all classes of business than any other season of the year. Wheat dealers all expect to be millionaires by Christmas; so, if we do not all get rich, it is because we have not tried.

CALEB WALL.

THE NEW LINE OF BOATS.—We have nothing whatever to say against the large packets plying upon the river. They have for years past rendered an essential service to this State and the Upper Mississippi valley generally, and we should very much regret to see either of the lines discontinued. But in this time of extremely low water, such boats as the *Winona*, *Favorite* and *Frank Steele*, forming a daily line between La Crosse, Winona and St. Paul, are greatly superior to the larger packets. Their light draught enables them to run wherever there is a "heavy dew;" consequently, they are always up to time, and do not disappoint the traveler by lying four hours or days upon sandbars. They are, besides, well officered and manned, and their passengers are provided for in the most luxurious manner. The line is now in complete running order.—*Winona Republican, of Friday.*

MUNICIPAL COURT, AUG. 20.—Geo. Hartman, drunk, fined $3 and costs. Sent to jail for 15 days.

Paddy Flynn (well known in the annals of policedom) vagrancy. Sent to the poor house for seven days.

Bennett Schumer, assault and battery; continued till the 21st.

W H. Poud, assault and battery, fined $5 and costs. Paid.

THE BLACKBERRY FESTIVAL last night, for the benefit of Banner Lodge of Good Templars, was a very pleasant affair, and also successful, for the Hall was filled all the evening. The decorations attracted general admiration, and reflected the good taste of the lady members of the Lodge, under whose auspices the Festival was gotten up.

DON'T FAIL to be present at the sale of furniture to-morrow morning at 10 o'clock, at JESSEL's, near the Walker House. There are some choice articles on the catalogue, and will be sold to the highest bidder. Attend, housekeepers.

WALL, city auctioneer, has a house to sell which he highly recommends. Read his advertisements this morning.

Congressional Nominations.

FRED HORN, of Cedarburg, writes to the *News* that he is not a candidate for the Democratic Congressional nomination this fall, but goes in for the re-nomination of Judge LARRABEE. To be sure he is "under no obligations to the Judge," nor has he forgotten "the Oshkosh transaction," while he says that the result in Fond du Lac would not have taken place if himself and his friends "had been treated by another party with common gratitude even!" "But these things are all past," adds FRED, and only show that if *he* "can advocate the re-nomination of LARRABEE, no other politician in the district ought to object." Possibly not, though some of them do object most decidedly. But the pins have been well set up by LARRABEE and his friends and his re-nomination is no doubt secured.

FRED. HORN, in his letter, observes:

> The great trouble with us northern men, or rather politicians, is, that as soon as a man is somewhat prominent, all hands unite to pull him down again.—This ought not to be our policy, especially with a member of Congress; it takes sometime to get acquainted with the rules, regulations, men and things at Washington, say at least one term, before we can reasonably expect that a member can acquire influence and be of service, not only to his party, but also to the State he in part represents. The south is mainly indebted for her strength in Congress to a policy entirely different from ours; men are sent there to both Houses of Congress as long as they wish to go, provided they have not made themselves really objectionable. With equal talents and qualifications, one old member is worth three or four new ones! Thus we see that a minority accomplishes something which was not intended to be passed by a majority.

There is force in these suggestions, and they are even more applicable to the condition of things in this District, than to those in the Third. Our Democratic friends here coolly invite us to throw overboard a true and tried man, who has faithfully represented the interests and reflected the sentiments of his constituents, for a new and untried man. Judge POTTER, during the three years that he has served in Congress, has gradually won his way to a position of great influence, and enjoys, in a high degree, the respect and confidence of Members of all parties. He has made himself especially conspicuous in defending and maintaining, on the floor of the House, regardless of all personal consequences, *the right of* FREE SPEECH; and every man who values that right and is not willing to see a Southern gag fastened upon the mouths of Northern Representatives, will cordially give his voice and vote to re-elect JOHN F. POTTER.

Under which King Bezonian?

The *Enquirer*, BRECKINRIDGE organ, endorses Mr. ARNOLD as "sound on the question of the right of property in Territories." Thereupon the *News* waxes wroth; denounces its brother of the *Enquirer*, as "a wolf in sheep's clothing;" claims that Mr. ARNOLD endorses the DOUGLAS dogma of Squatter Sovereignty, and that he *detests* "the man, JAMES BUCHANAN." In proof of this the *News* says:

> "Speaking of "the Booth question," Mr. Arnold in his speech before the Convention, declared "that if the question had been between James Buchanan and S. M. Booth, he did not know which side he would take." And yet, "Old Buck's" organ says: "He (Arnold) was our (the *Enquirer's*) choice long before the Convention." "Call you that backing your friends?" What will Mr. Buchanan say to that? Here is treason to James Buchanan. But we do not propose to redress the wrong done him. He must take care of himself. Our object is to vindicate Mr. Arnold and the democracy of this Congressional District, against the malicious insinuations of a sheet which seeks to injure Mr. Arnold by hypocritical professions of friendship and regard for him. Those who have heard Mr. Arnold excoriate the Administration and its pimps cannot mistake the motives which prompted the publication of that fiendish paragraph.

We judge that there is a "coolness" growing up between the *News* and the *Enquirer*. They are "pulling caps" for Mr. ARNOLD, each him claiming for its own. We wait to hear Mr. A. speak for himself. We have certainly understood that he held to the BUCHANAN and U. S. Supreme Court doctrine as to right of property in Slaves, in all Territory of the United States.

Douglas Fuses with the Know-Nothings in New York.

> The Bell-Everett and Douglas State Conventions, of New York, which have been in session at Syracuse, have finally succeeded in fixing up an electoral ticket—the Douglas men taking two-thirds and the Know-Nothings one-third of the electors. With this kind of a bargain, they go before the people, and expect to carry the State for their mongrel ticket. Time will show how many Democrats in the Empire State can be roped into the support of the men who have been the life-long enemies of the principles they cherish.—*Madison Argus and Democrat.*

The DOUGLAS Know-Nothing fusion in New York is the last dodge of a despairing party. The DOUGLAS leaders refused to coalesce with their Democratic brethren of the BRECKINRIDGE persuasion, but were eager to make terms with the Know Nothings.—But these shameless political tricksters will find their "Dark Lantern" a worse guide to the White House than an *ignis fatuus*. The honest masses of the Democratic and BELL parties will repudiate the "bargain and corruption" of their would be leaders. The action at Syracuse ensures New York for LINCOLN by even a larger majority than his most sanguine friends have claimed.

NOT GOING TO DISSOLVE THE UNION.—Governor WISE, of Virginia, has written words of comfort to the Union-savers of Boston. He declares in favor of BRECKINRIDGE and LANE, but agrees to stay in the Union, even if LINCOLN is elected, as he thinks he will be. He says:

> God grant that our efforts be not in vain. I fear they will be—that Black Republicanism is to triumph at the coming election. If so I mean for one to abide by and in the Union, to *fight in it*, not *out of it*—aid in saving the country and its Constitution; but not to submit one moment, or to concede one single item, to a triumph which will degrade me and mine in this Confederacy of free and equal States. Pardon this hurried essay, and believe me sincerely yours.
> HENRY A. WISE.

What Gov. WISE's programme, in the event of LINCOLN's election (which he concedes), is to be, he does not say. Possibly he will seize Fort Monroe and Harper's Ferry, march upon Washington, and establish himself in the Federal Capital, before Mr. LINCOLN arrives there. We shall see.

A Certificate of Character.

The Mobile *Register*, a very zealous DOUGLAS organ, is trying very hard to satisfy the South that Mr. DOUGLAS is entirely sound on the slavery question and may safely be trusted to protect it where it exists and encourage its extension. The *Register* says: "By the death, lately, of the mother of Judge DOUGLAS' first wife, who was a Miss MARTIN, of North Carolina, his two boys, his only children, came into possession of a large fortune consisting in plantations and slaves. This, added to his extensive Mississippi property, will make Mr. DOUGLAS, in behalf of his children, *one of the largest slave owners in the South.* How a man who has twice selected a southern lady for his wife, the whole fortune of whose children is dependent on the perpetuity of our institutions, who, in his public life has ever been the friend, and, until quite recently the idol of the South; who is almost the only Northern man of prominence *that has never uttered one word of dislike, much less hatred, to slavery*, how such a man can be represented as a worse enemy to slavery than LINCOLN, passes our comprehension. The Judge has been sent for by his connections in North Carolina, and will probably visit the old North State."

This is a strong recommendation certainly And the *Register* might have added that Mr. DOUGLAS has declared himself quite indifferent as to whether slavery "is voted up, or down," and openly boasts that his "great principle," Squatter Sovereignty, has given the South *a degree and a half more of Slave Territory* than it ever claimed.

Ex-President Van Buren's Prediction.

The New York correspondent of the Rochester *Union* writes that, last week, while at Sharon Springs, in conversation with a friend on political topics, Martin Van Buren said:—"I am not much given to making political predictions, but you may bear this in mind, which I now predict, namely, that Mr. Douglas will carry the State of New York in November."

In making this prognostication the Sage of Lindenwald exhibited his usual perspicuity.—*News, of yesterday.*

In 1848 the "Sage" exhibited "his usual perspicuity" by predicting his own election in New York and the editor of the *News*, who was then helping him to defeat CASS and break down the Democratic party, placed faith in that prediction. So now, when the Sage and the *News* are again endeavoring to divide and destroy the Democratic party, for the benefit of Mr. DOUGLAS, the same "perspicuity" leads them to indulge the flattering hope that New York will aid them in this work. So no doubt it will, by giving Mr. LINCOLN an overwhelming majority, as well over the DOUGLAS Know-Nothing party, as over the regular BRECKINRIDGE Democracy.

Republicanism in Minnesota.

The Republicans of Minnesota met in State Convention at St. Paul last week, and unanimously re-nominated their popular and efficient Representatives in Congress, CYRUS ALDRICH and WILLIAM WINDOM. The following ticket for State officers and Presidential electors was also adopted by acclamation:

For State Auditor.—Chas. McIlrath, of Nicollet.
For Clerk of the Supreme Court.—A. J. Van Vorhes, of Washington.
For Presidential Electors.—Stephen Miller, of Stearns; Wm. Pfaender, of Brown; Clark W. Thompson, of Houston; Charles M'Clure, of Goodhue.

The proceedings of the Convention were characterized by entire harmony, and in the evening an enthusiastic ratification meeting was held, which called together a very large crowd. MINNESOTA, like the adjoining States, WISCONSIN and IOWA, is sure fire for LINCOLN and LIBERTY this fall.

St. Lawrence County, New York.

This county, for many years one of the Democratic strongholds in the Empire State, is now overwhelmingly Republican. They talk of seven or eight thousand majority for "Honest Old ABE." Here is a specific report from *one* of the election districts, which is *unanimous* for LINCOLN:

Correspondence of the Albany Evening Journal.

LISBON, Aug. 13, 1860.

If the Rome *Sentinel* is not satisfied with the reports of the canvass in our county, please refer it to the returns of Election District No 3, Lisbon. This district lies on the St. Lawrence river, ten miles long and from one to two miles wide, including a few votes on the islands. The whole number of votes given for Governor in 1858, was 150. Morgan had 140; Burrows had 6, and Parker 4 All of the Burrows men are now Lincoln men; two of the Parker men experienced religion last winter, and one of them a short time ago said, that he had always been a Democrat, but since his conversion, he now looked at these things very differently. At this time there is not a man in the district that has brass enough to hold up his head and advocate either Northern or Southern Democracy. Yours, truly, S. D.

The Rival Rope-Walkers.

From the Buffalo Commercial, Aug. 16.

The attendance at the Falls and the Bridge was quite large yesterday, the new candidate, Sig. Farini, having a little the best "house," as those who had seen Blondin were anxious to witness the first effort of the new candidate.

Blondin did not start until after five o'clock, as he seemed anxious that those who desired might witness both exhibitions and make a comparison. He started from the Canada side, and, going on a sort of trot till he reached the centre, he stopped and stood on his head, the balancing pole touching nothing but the main cable. In this position a picture was taken of him by Mr. Evans. Regaining his proper position, he ran lightly to the shore. After a short intervall he appeared again with his feet in baskets, making, apparently, the attempt a foolhardy and perilous one. But he made nothing of it, and reached the shore, as usual, in safety. Arranging his cook stove, which by the way, is a model,—and having overhauled his stock of salt, pepper, eggs, &c., to see that he was fully provisioned for his journey, he shouldered his kitchen furniture, and, with a pleasant "Good-bye, ladies and gentlemen," he started. On reaching the middle of the cable he stopped, unstrapped his load, and, adjusting it on the rope, commenced preparations for supper. It would have appeared comical, were it not for the seeming peril, to witness his manœuvres. As it was a shout went up when, after breaking the eggs into his dish, throwing the shells overboard, peppering, salting, and stirring them together, he placed it on the stove, and the smoke was seen curling from the pipe—Having finished his meal, he resumed his load and passed steadily to the shore.

Signor Farini made his maiden ascension, also. His place of crossing is a short distance below the ferry. The distance across the chasm at that point is somewhere about 1,500 feet. The whole cable, we understand, was 1,800 feet in length, and considerable of this was, of course, taken up on each side in fastening it. At the time appointed, the Signor made his appearance, and, after waiting a while for his guys to be adjusted, he commenced his perilous journey. It was painful at first to behold him. It seemed a little uncertain as to the result. He seemed to move with the utmost caution. He was evidently impeded in his progress by his pole; it was so long and so limber as to be constantly coming in contact with the guys. We understand that it was by mistake made longer than he had ordered it to be. Having got under way, however, he proceeded with more apparent boldness. In passing over the first time, he performed several feats, such as standing on his head and lying full length upon his back. On his return, when about half way across, he stopped and drew up a rope from the Maid of the Mist, on which he descended (not head foremost as he advertised,) to her deck, and, after staying there awhile, he again ascended, and proceeded on his journey to its completion.

There was quite a respectable crowd collected to witness the performance.

POLITICAL DEMORALIZATION.—If there was anything further needed to show how utterly abandoned Douglasism has become, it is furnished in its fusion with the American party in New York.

"Sam" has joined hands with Stephen, and they are henceforth to hunt in couples. "Down with the Pope," shouts Sam.—"Amen to that sweet prayer," echoes Stephen.

"My great principle" kicks the beam, and "put nothing but Americans on guard," becomes the slogan, and "let the people govern themselves," gives way to "Americans must rule America!"

There was something manly and dignified in the rejection of the overtures of the Breckinridge party by the Douglasites, but this coalition with a miserable little faction, as impotent in numbers as in influence, is contemptible.

If anything further was necessary to fix the vote of New York for Lincoln, this alliance will do so; for it shows how little of principle there is left in Douglasism. The auction has been held—the property struck off—but there will be a failure in the delivery.—*Chicago Journal.*

MATTERS AT PIKE'S PEAK.

Quartz Mills—Quartz Milling—The Western Slope—Kit Carson—The Future Prospects of Idahoe.

Correspondence of the Sentinel.

GREGORY DIGGINGS, Aug 6th, 1860.

I did not promise in my last to give you another communication from the battle field of quartz and Quartz Mills, but for some reason or other, wandering through these mountains, listening now to the polka-time of the numberless nameless crashers as they thunder away upon the rocks, and again to the plaintive music of some home-sick miner as he winds his way through the mountain passes, singing: "Home sweet Home" or "Arn't I glad to get out of the wilderness," rather tends to make one communicative. I have been spending three or four days at Idahoe, (The Gem of the Mountains) prospecting the various lodes and calculating upon the future of this newly discovered gold field.

Idahoe is situated on Clear Creek, eight miles southwest from Gregory, and contains from fifty to one hundred houses, to say nothing of the hundreds of tents and brush cabins. Here is a lovely site for a city, and here too very soon, there must be a city of from five to ten thousand inhabitants,—this I judge from the unbounded resources of their gulch and lode claims—their superior water-power and the enterprize of its inhabitants. Here I met BUTTON, BARBER, KELLY & Co, of your city, with a quartz mill, making active preparations for running as soon as possible.

There is one peculiar feature about this whole mining country, viz.: the nearer you approach the Snowy Range, the more numerous the quartz lodes and the richer the quartz; and we are told, by those who have crossed the Range, that the gold mines on the Western Slope are far richer than anything as yet discovered here. This is confirmed by the renowned KIT CARSON, who has recently visited this country with the view of organizing a company to cross the Range, for the purpose of exploring the country west of the mountains. However, he did not succeed in organizing a company—probably on account of Indian depredations at, or about that time on the Western Slope; still many are now leaving with high hopes of realizing a speedy fortune. Heaven grant them success—such hardships, such privations, such sacrifices as they must suffer, ought to be rewarded. But the present prospects of quartz mills is what I propose speaking of in this communication, as the readers of the SENTINEL must be interested in quartz milling in this region, for her patrons are found in every mountain district, and a glimpse of her face is sought for as one friend seeks another in the lonely forest. There are now about fifty mills in operation, no one of which comes up to the anticipations of its friends. The reasons for these partial failures are obvious to every quartz mill owner in the mines. In the first place, much of the machinery has been manufactured like "shop-slop clothing"—*for sale cheap*—and, like that same clothing, is found too cheap, when brought into actual service. In the second place, few of the mills have any machinery for saving the fine gold, and nothing for pulverizing the quartz after leaving the stamps; and, in the third place, the quartz does not contain the gold that many have anticipated.

Among the few mills doing well here, as far as I can learn, (and I have visted almost every mill in Gregory,) R. C. TOTTEN & Co.'s mills, manufactured at St. Louis, works the smoothest, does the most work to the same number of stamps, saves the most gold, and gives the best satisfaction of any mill I have yet seen. This class of mill is principally owned by Wisconsin men. There are several of these machines in operation, the most prominent of which, at present, is owned by the Kenosha Quartz Mill Co.—There are two other mills, of the same make, owned by Milwaukee parties, (the COALMAN and LEFEVRE and the HARRIS and WHEELER Mills,) both nearly ready to run, and, judging from the work of the Kenosha Co., there is little doubt but you will soon hear of fine work by both of these mammoth machines. The chilled stamps and cast-iron collars do not seem to work well; there is too much friction on the cams, while the stamps are less durable than the steel ones. Wrought iron collars and steel dies seem to have the preference. TOTTEN & Co. are the only firm that I know of now manufacturing this kind of work. There is much speculation among "out-siders," relative to the amount of gold being taken out by the various mills, and while stories of success are heralded far and near, the failure of any one of them is kept as near home as possible. *From* personal observation, I should say, taking them as a whole, they are just about paying expenses. There is much cutting, and trying and experimenting with most of the mills, and will be for a year to come.

They are having exciting times in Denver, serving up some of their citizens daily, for breakfast.

We are all pleased to see the masterly manner in which "Honest Old ABE" is driving the tough wedge of Squatter Sovereignty into the but cut of Democracy. May he split the whole party with Freedom's Rail, and may we, of the mountains, in November, rejoice with you in seeing them piled up thro'-out the Union in piles of from five to one hundred thousand. Won't LINCOLN need them all to fence in Washington, to prevent being besieged by Southern office seekers? Of course he will. H. H. H.

P. S.—I shall soon make a trip to the head-waters of the Arkansas, to the Blue, and, perhaps, the Colorado. At all events you shall hear from Milwaukee in the Mountains as often as he has time to communicate. H.

Poetry and Politics.

The War of the Roses is taking a poetical turn. It will be remembered that ex-Senator Dickinson, in his speech at the Cooper Institute, expressed his sense of the double fraud practiced upon him by the Softs at the Syracuse and Charleston Conventions, and his determination to punish his betrayers, by quoting the defiance which Fitz-James hurled in the face of Roderick Dhu:

"Twice have I sought Clan-Alpine's glen,
In peace; but when I come again,
I come with banner, brand and bow,
As leader seeks his mortal foe."

Not to be outdone by the Great Hard, either in defiant courage or devotion to the classics, ex-Controller Church, in a recent speech at Lockport, cited the slogan of Dickinson, and said he could not better express his own eagerness to cross swords with him than by repeating the lines immediately following those quoted by Dickinson, and applying them to him:

"For lovelorn swain in lady's bower,
Ne'er panted for th' appointed hour
As I, until before me stand,
This rebel chieftain and his band."

This was a happy retort of the Controller. But we need not remind him and his clansmen that the omens are against them. They will remember that when afterwards Roderick and James met at Coilantogle Ford, "man to man, and steel to steel," the fight, though desperate, turned against the Northern chieftain, and in favor of the Southern prince; and that in the death-grapple, tho' both went down, yet

"Unwounded from the dreadful close,
But breathless all, Fitz-James arose,
And faltered thanks to Heaven for life,
Redeemed, unhoped, from desperate strife."

Nor will the clansmen of Roderick, nor the liegemen of Fitz-James forget that

"Four mounted squires in Lincoln green,"

After viewing "the bloody spot" where Roderick lay stiff in death, rushed off to Court to tell the welcome news that the Squatter Sovereign of the Highlands was no more.—*N. Y. Tribune.*

POPULATION OF EAU CLAIRE.—The population of this village, as ascertained by the U. S. Deputy Marshal, is 1,750; and that of the county, 3,500. For a town of a little over four years growth, we regard this a fair number.—*Eau Claire Free Press.*

A MAN from the country, whose wife had eloped and carried off the feather bed, was in Louisville in search of them—not that he cared anything about the wife, "but the feathers," said he, "them's worth forty-eight cents a pound."

On the 10th he goes on an excursion to Lake Simcoe.

On the 11th he goes from Toronto to Sarnia, and thence to London.

On the 12th, 13th and 14th, he will journey towards Niagara Falls via Paris, Brantford and Fort Erie.

The 15th and 16th will be spent at the Falls, at which place there is some talk of giving him a ball, but it is not likely to take place.

On the 17th an exhibition and entertainment will be given to the agricultural population; the new water-works will be inaugurated, the city schools visited, and an exhibition of Indians witnessed by the Royal party.

The exact course to be pursued after leaving Niagara has not yet been decided upon, though he will probably go from Buffalo to Cincinnati or Pittsburgh, and by the Baltimore and Ohio road to Washington. Returning, he will tarry at Philadelphia one night, and thence go directly to New York, from which point he will take his departure for England, the fleet having gone round to New York to meet him.

A grand dinner is being given this evening to Sir F. Williams and staff at the Parliament Buildings.

No account can exaggerate the interest and intense excitement manifested here by all classes of people, on account of the visit of the Prince, and the arrangements made for his comfort and enjoyment ought to satisfy the most capricious of Princes, or the most *blasé* of humanity. HOWARD.

In establishing this new series, it has also been our design to produce a watch in every way superior to the best and highest priced products of the most reputable of English and Swiss watch manufacturers; and no labor or expense has been spared to this end.

In all respects of fine and durable material, of external and internal finish, accurate compensation and adjustment, of mathematically just proportions, and of practical results, our new three-quarter plate watch challenges competition with any in the world,

THE BLOOD IS THE LIFE.

NO MORE SHALL THE POOR SUFFERERS in our country languish, their constitutions racked and torn by strong and dangerous mineral medicines; they will come to the fountain of health, found in simple herbs and roots from nature's storehouse. THE MOUNTAIN HERB PILLS, of innocent mountain plants composed, will reach and stop their distress, and cause the blood, renewed and cleansed, to carry through the body the elements of health; building up the broken constitution and carrying life and health, where but for them would have been the wreck of hope—the feeble moan of suffering, at last ended by the cold hand of death. Do not let prejudice overcome your better reason; do not look upon these Pills as only like others; do not let your despair, after trying everything else, prevent you from trying them. The blood must be pure, and then sickness is impossible.—What a great and yet simple truth is this! it appeals to the common sense of all; it is the great key-stone of the healing art. JUDSON'S MOUNTAIN HERB PILLS will purify and cleanse it as sure as the sun will rise to-morrow.

Judson's Mountain Herb Pills are sold by all medicine dealers. aug13d&11doweow1m

HA! HA!

When summer suns are glancing on the merry damsels dancing
'Neath the pendulous aroma of the beauty-blushing vine;
When summer birds are cooing, in redowas of wooing,
'Mid the azure-dimpled ether, 'mid the fringes of the pine—
I win a frolic girl
From the rabble and the whirl,
And I say she is a seraph, and I swear she is a pearl—
Ha! ha!
Ha! ha!
Who is gentler, who is fairer, ha! ha! who is sweeter,
Who is brighter, ha! ha! who is wittier and neater,
Than the Queen of my Spirit—its glorious defeater—
Ha! ha! ha! Rita! Rita!

Ha! gayly we are flying, with laughter, love and sighing,
O'er the valley of Berilla, in its livery of green—
Ha! madly we are dashing by the torrent thunder-flashing,
And beyond the echo flutter of the flute and violin—
Little fairy, little fay,
From the torrent keep away,
Or thy roses and thy ribbons will be waltzing in the spray—
Ha! ha!
Ha! ha!
Who is gentler, who is fairer, ha! ha! who is sweeter,
Who is brighter, ha! ha! who is wittier and neater
Than the Queen of my Spirit—its glorious defeater—
Ha! ha! ha! Rita! Rita!

In the twinkle of a minute she wildly pours within it
The glory of her ringlets, like a vivid golden veil;
In a second of derision she forgetteth her precision,
And is captured by the current as it darts along the vale!
I shoot beneath the flood
All the lightning of my blood—
I reach her, and I save her, and I bear her to the wood—
Ha! ha!
Ha! ha!
Who is gentler, who is fairer, ha! ha! who is sweeter,
Who is brighter, ha! ha! who is wittier and neater
Than the Queen of my Spirit—its glorified defeater—
Ha! ha! ha! Rita! Rita!

You may fancy that the fountain, baffled billow of the mountain,
Is singing you this secret as it crashes grandly down,
"What beatitude completer—he is wed to his Rita,
And they emulate the angels 'neath the summer's burning crown!"
We are wed! we are wed!
As the waterfall hath said,
And we envy not the annals of the living or the dead—
Ha! ha!
Ha! ha!
Who is gentler, who is fairer, ha! ha! who is sweeter,
Who is brighter, ha! ha! who is wittier and neater
Than the Queen of my Spirit—its glorified defeater—
Ha! ha! ha! Rita! Rita!

The Bladensburgh Duelling Ground.

The Philadelphia *Ledger* gives some reminiscences of this spot, which are at once interesting and sad. Here, upon the duelling ground, in a beautiful little grass plot, surrounded by trees, forms, made after the image of God, come to insult Nature and defy Heaven.

In 1814, Edward Hopkins was killed here in a duel. This seems to be the first fashionable murder of which this place was the theatre.

1819, A. T. Mason, a U. S. Senator from Virginia, fought with his sister's husband, John McCarty, here. McCarty was averse to fighting, and though there was no necessity for it; but Mason would fight. McCarty named muskets, loaded with grape-shot, and so near together that they would hit heads if they fell on their faces. This was changed by the seconds to loading with bullets and making twelve feet as the distance. Mason was killed instantly, and McCarty, who had his collar-bone broken, still lives with Mason's sister in Georgetown. His hair turned white so soon after the fight as to cause much comment. He has since been solicited to act as second in a duel, but refused, in accordance with a pledge he made to his wife soon after killing her brother.

In 1820, Commodore Decatur was killed in a duel here by Commodore Barron. At the first fire both fell forward, with their heads within ten feet of each other; and, as each supposed himself mortally wounded, each fully and freely forgave the other, still lying on the ground. Decatur expired immediately, but Barron eventually recovered.

In 1821, two strangers, named Laga and Sega appeared here, fought, and Sega was instantly killed. The neighbors only learned this much of their names from the marks on their gloves left on the ground. Laga was not hurt.

In 1822, Midshipman Locke was killed here by a clerk of the Treasury Department named Gibson. The latter was not hurt.

In 1826, Henry Clay fought (his second duel) with John Randolph just across the Potomac, as Randolph preferred to die, if at all, on Virginia's soil. He received Clay's shot, and then fired into the air. This was in accordance with a declaration made to Mr. Benton, who spoke to Randolph of a call the evening before of Mrs. Clay, and alluded to the quiet sleep of her child, and the repose of the mother. Randolph quickly replied: "I shall do nothing to disturb the sleep of the child, or the repose of the mother."

General Jessup, whose funeral I attended last evening, was Clay's second.

When Mr. Randolph fired, he remarked: "I do not shoot at you, Mr. Clay," and extending his hand, advanced toward Clay, who rushed to meet him. Randolph showed Clay where his ball struck his coat, and said, facetiously: "Mr. Clay, you owe me a coat."

Clay replied: "Thank God the debt is no greater!" They were friends ever after.

In 1832, Martin was killed by Carr—Their first names are not remembered. They were from the South.

In 1833, Mr. Key, son of Frank Key, and brother to Barton Key, of Sickles notoriety, met Mr. Sherborn, and exchanged a shot, when Sherborn said:

"Mr. Key, I have no desire to kill you."

"No matter," said Key, "I came to kill you."

"Very well, then," said Sherborn, "I will kill you." And he did.

In 1838, W. J. Graves, of Kentucky, assuming the quarrel of James Watson Webb with Jonathan Cilley, of Maine, selected this place for Cilley's murder; but the parties learning that Webb, with two friends, Jackson and Merrell, were armed and in pursuit, for the purpose of fighting with Cilley, moved toward the river and nearer the city. Their pursuers moved toward the river, but missed the parties, and then returned to the city, to which they were soon followed by Graves and the corpse of Cilley.

In 1845, a lawyer, named Jones, fought with and killed Dr. Johnson.

In 1851, R. A. Hoole and A. J. Dallas had a hostile meeting here. Dallas was shot in the shoulder, but recovered.

In 1852, Daniel and Johnson, two Richmond editors, held a harmless set to here, which terminated in coffee.

In 1853, Davis and Ridgeway fought here; Ridgeway allowed his antagonist to fire without returning the shot.

Richardson's Irish Linens, Damasks,

DIAPERS, &C.—CONSUMERS OF RICHARDSON'S LINENS, and those desirous of obtaining the GENUINE GOODS, should see that the articles they purchase are sealed with the full name of the firm, J. N. RICHARDSON, SONS & OWDEN, as a guarantee of the soundness and durability of the Goods.

This caution is rendered essentially necessary, as large quantities of inferior and defective Linens are prepared, season after season and sealed with the name of RICHARDSON, by Irish Houses, who, regardless of the injury thus inflicted alike on the American consumer and the manufacturers of the genuine Goods, will not readily abandon a business so profitable while purchasers can be imposed on with Goods of a worthless character.

PURE MEDICINAL BRANDY

For the City of Milwaukee. This Brandy has been thoroughly analyzed by the N. Y. State Assayer, Dr. A. A. Hayes, Chemist and Prof. Doman Sheppard, Charlestown, S. C.; Prof. T. R. Chilton, New York; Prof. Pratt, of Savannah; Prof. Lampont, J. R. Nichols, of Boston; and Dr. Cox, of Cincinnati; and recommended by them to be strictly pure, and an excellent stimulant in all cases where pure Brandies are indicated.

The manufacturer of this fine Brandy guarantees (*or will refund the money*) that it will cure

GENERAL DEBILITY AND NERVOUSNESS.

Physicians are now prescribing it in the place of Paragoric—not having the *deadening* effect of that medicine upon the brain.

The physicians in each city, town or village in the State are solicited to apply to the undersigned, who will give them a bottle free of charge, to try before prescribing.

Dose for an infant six weeks old, one teaspoonful, diluted in two tablespoonsful of cold water, and given by the teaspoonful every five minutes until relief is effected.

Adults and children in proportion.

The want of pure Medical Brandy has long been felt in this country.

The properties contained in this Brandy are more stringent than French Brandies. This the manufacturers claim are the merits, and challenge the world to disprove these facts.

Medical.

MOFFAT'S
Life Pills and Phoenix Bitters!

THESE MEDICINES HAVE NOW been before the public for a period of THIRTY YEARS, and during that time have maintained a high character in almost every part of the Globe, for their extraordinary and immediate power of restoring perfect health to persons suffering under nearly every kind of disease—to which the human frame is liable.

The following are among the distressing variety of human diseases in which the
VEGETABLE LIFE MEDICINES
Are well known to be infallible.

DYSPEPSIA, by thoroughly cleansing the first and second stomachs, and creating a flow of pure, healthy bile, instead of the stale and acrid kind; FLATULENCY, Loss of Appetite, Heartburn, Headache, Restlessness, Ill-Temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspepsia, will vanish, as a natural consequence of its cure.

COSTIVENESS, by cleansing the whole length of the intestines with a solvent process, and without violence; all violent purges leave the bowels costive within two days.

FEVERS of all kinds, by restoring the blood to a regular circulation, through the process of respiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Life Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammation from the muscles and ligaments of the joints.

DROPSIES of all kinds, by freeing and strengthening the kidneys and bladder; they operate most delightfully on these important organs, and hence have ever been found a certain remedy for the worst cases of GRAVEL.

Also WORMS, by dislodging from the turnings of the bowels the slimy matter to which these creatures adhere.

SCURVY, ULCERS and INVETERATE SORES, by the perfect purity which these LIFE MEDICINES give to the blood, and all the humors.

SCORBUTIC ERUPTIONS and BAD COMPLEXIONS by their alterative effect upon the fluids that feed the skin, and the morbid state which occasions all eruptive complaints, sallow, cloudy, and other disagreeable complexions.

The use of these Pills for a very short time will effect an entire cure of SALT RHEUM, and a striking improvement in the clearness of the skin. COMMON COLDS and INFLUENZA will always be cured by one dose, or by two in the worst cases.

PILES.—The original proprietor of these Medicines, was cured of Piles, of 35 years standing by the use of the LIFE MEDICINES alone.

FEVER AND AGUE.—For this scourge of the western country, these Medicines will be found a safe, speedy, and certain remedy. Other medicines leave the system subject to a return of the disease—a cure by these Medicines is permanent—TRY THEM, BE SATISFIED AND BE CURED.

BILIOUS FEVER AND LIVER COMPLAINTS.—General Debility, Loss of Appetite, and Diseases of Females—the Medicines have been used with the most beneficial results in cases of this description: King's Evil and Scrofula, in its worst forms, yields to the mild yet powerful action of these remarkable medicines. Night Sweats, Nervous Debility, Nervous Complaints of all kinds, Palpitation of the Heart, Painter's Colic, are speedily cured.

MERCURIAL DISEASES.—Persons whose constitutions have become impaired by the injudicious use of Mercury, will find these Medicines a perfect cure, as they never fail to eradicate from the system all the effects of Mercury, infinitely sooner than the most powerful preparations of Sarsaparilla.

It is not too Much to Say
SINCE ALL,
OLD AND YOUNG,
Affirm its Truth,

VIZ: THAT PROF. WOOD'S HAIR RESTORATIVE will preserve *infallibly* the *growth* and *color* of the hair, if used two or three times a week, to any imaginable age. Perfectly restore the gray, cover the bald with nature's own ornament, the hair; make it more soft and beautiful than any oil, and preserve the scalp free from all disease to the greatest age. Statesmen, Judges, Attorneys, Doctors, Clergymen, Professional men, and Gentlemen and Ladies of all classes, all over the world, bear testimony that we do not say too much in its favor. Read the following, and judge:

HICKORY GROVE, St. Charles Co., Mo., November 19, 1857.

PROF. O. J. WOOD—Dear Sir: Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Hair Restorative; we did so, with little hope of success, but to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair as any other child. We can, therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are Yours respectfully,
GEORGE W. HIGGINBOTHAM,
ARABIA HIGGINBOTHAM.

PROF. WOOD—Dear Sir: My hair had, for several years, been becoming prematurely gray, accompanied by a harshness which rendered the constant application of oil necessary in dressing it. When I commenced using your Hair Restorative about two months ago it was in that condition; and having continued its use till within the last three weeks, it has been turned to its natural color, and assumed a softness and lustre greatly to be preferred to those produced by the application of oils or any other preparation I have ever used. I regard it as an indispensable article for every lady's toilet, whether to be used as a Hair Restorative or for the simple purpose of dressing or beautifying the hair. You have permission to refer to me all who entertain any doubt of its performing all that is claimed for it.
MRS. C. SYMONDS,
Cincinnati, Ohio, Feb. 10, 1857. 114 Third st.

WELLINGTON, Mo., Dec. 5, 1857.

PROF. WOOD—Dear Sir: By the advice of a friend of mine, who had been using your Restorative, I was induced to try it. I had the fever, some time last May, and nearly every hair in my head came out. Now my hair has come in a great deal thicker than ever it was. Nothing but a duty and sympathy that I feel to communicate to others who are afflicted as I have been, would induce me to give this public acknowledgment of the benefit I have received from Prof. Wood's Hair Restorative.
Yours respectfully,
A. R. JACOBS.

The Restorative is put up in bottles of three sizes, viz: Large, medium, and small; the small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

THE GREATEST
MEDICAL
DISCOVERY
OF THE AGE.

MR. KENNEDY, OF ROXBURY, HAS discovered in one of our common pasture weeds a remedy that cures
EVERY KIND OF HUMOR
FROM
THE WORST SCROFULA DOWN TO A COMMON PIMPLE.

He has tried it in over eleven hundred cases, and never failed except in two cases, both thunder humor. He has now in his possession over one hundred certificates of its value, all within twenty miles of Boston.

Two bottles are warranted to cure a nursing sore mouth.
One to three bottles will cure the worst kind of pimples on the face.
Two or three bottles will cure the system of biles.
Two bottles are warranted to cure the worst canker in the mouth and stomach.
Three to five bottles are warranted to cure the worst kind of Erysipelas.
One to two bottles are warranted to cure all humor in the eyes.
Two bottles are warranted to cure running of the ears and blotches among the hair.
Four to six bottles are warranted to cure corrupt and running ulcers.
One bottle will cure scaly eruptions of the skin.
Two or three bottles are warranted to cure the worst kind of ringworm.
Two or three bottles are warranted to cure the most desperate case of rheumatism.
Three or four bottles are warranted to cure salt rheum.
Five to eight bottles will cure the worst case of scrofula.
A benefit is always experienced from the first bottle, and a perfect cure is warranted when the above quantity is taken.

ROXBURY, Mass.

DEAR MADAM:—The reputation of the Medical Discovery, in curing all kinds of humors, is so well established, by the unanimous voice of all who have ever used it, that I need not say anything on the subject, as the most skillful physicians and the most careful druggists in the country are unanimous in its praise.

In presenting the Medical Discovery to your notice, I do it with a full knowledge of its curative powers, in relieving all, and curing most of the diseases to which you are unfortunately so liable. That most excruciating disease to an affectionate mother,

NURSING SORE MOUTH

is cured as if by a miracle; your own temper is restored to its natural sweetness, and your babe from short and fretful naps to calm and sweet slumbers, and the Medical Discovery becomes a fountain of blessings to your husband and household.

In the more advanced stages of
CANKER
it extends to the stomach, causing
DYSPEPSIA
which is nothing but canker on the stomach; then the intestines and
KIDNEYS
creating a sinking, gone feeling, and an indifference even to the cares of your family.
Your stomach is
RAW AND INFLAMED,
your food distresses you, and you can only take certain kinds, and even of that your system does not get the nourishment it contains, as the acrimonious fluid of the canker eats it up; then your complexion loses its bloom and becomes sallow or greenish, and your best day is gone. For want of nourishment your system becomes loose and flabby, and the fibres of your body become relaxed. Then follows a train of diseases which the Medical Discovery is peculiarly adapted to
CURE;
Palpitation of the heart, pain in the side, weakness of the spine and small of the back, pain of the hip-joints when you retire, irregularity of the bowels, and also that most excruciating of diseases the
PILES.

How many thousands of poor women are suffering from this disease and pining away a miserable life, and their next door neighbor does not know the cause. I wish to impress on your mind that good old proverb, "an ounce of prevention is better than a pound of cure." In the

MEDICAL DISCOVERY

you have both the preventative and the cure, with this great and good quality, that it will never, under any circumstances, do you an injury. Yours truly,
DONALD KENNEDY.

DR. CHURCHILL'S REMEDY.
WINCHESTER'S GENUINE PREPARATION OF THE
HYPOPHOSPHITES
OF LIME AND OF SODA,
(Made from the Formula of Dr. J. F. Churchill,)
FOR THE PREVENTION AND CURE OF
CONSUMPTION!

THE SUCCESS OF THIS NEW REMEDY, (discovered by Dr. Churchill, of Paris,) is obtaining the most UNBOUNDED POPULARITY throughout Europe and the United States. It is a purely SCIENTIFIC PREPARATION, and acts with INVARIABLE EFFICACY in all stages of Pulmonary and Nervous Diseases.

This *Remedy* has not only a curative effect, but will, if used wherever there exists a suspicion of the disease, PREVENT ITS DEVELOPMENT, and thus act, *as a preservative with regard to Consumption, just as vaccination does with regard to small-pox.*

What the Medical Profession Say.

"In no instance have I found the Remedy to fail."—*Dr. Churchill.*

"I have used your preparation of the Hypophosphites *with the most happy effect.*"—*C. Fisher, M. D., Lynville, Ill.*

"*I have been astonished in witnessing the good effects of the Hypophosphites.* The statements in your pamphlet are not at all exaggerated. My patient was just entering the last stage of tubercular consumption."—*S. Mases, M. D., Hoosic Falls, N. Y.*

"They exert an important remedial influence over the tubercular disease by *improving the nervous strength and invigorating the nutritive functions.*"—*Dr. W. E. Rust, Morristown, N. J.*

"I have derived more satisfaction from the use of your Hypophosphites *than from all other forms of medication combined.*"—*Dr. Geo. W. Maris, Columbus, O.*

"If, on the earliest appearance of the symptoms, the patient takes daily about ten grains of the Hypophosphites, he will speedily find himself in the enjoyment of such health as he, perhaps, had never known in his life before."

"Winchester's Hypophosphites are unexceptional in their preparation."—Am. Druggists' Circular.

"Mr. Winchester is worthy of all confidence, and devotes himself enthusiastically to these preparations in all their variety of combination. Prepared strictly by Dr. Churchill's method."—D. Meredith Reese, M. D., New York.

"LOWELL, O., July 5, 1859.—I have had several cases given up by attending physicians who are now exempt from all the symptoms of pulmonary disease.—I have used the Remedy in my own case, with decided success. It was regarded as hopeless by physicians and friends, and even by myself, under the 'old treatment.' I am now able to ride, in attending the sick, as many miles, perhaps, in a day, as any other physician in the country."—W. F. Clark, M. D.

"The Hypophosphites are most appropriate Remedies in a large class of affections resulting from loss of nervous force."—Boston Medical and Surgical Journal.

Dr. Churchill's Work on Consumption
IS NOW READY.

The Hypophosphites may be used with incurable success in Chronic Bronchitis, Asthma, Dyspepsia, and in all "Nervous" Disorders.

Make no Delay!

Consumptives, in any stage of the disease, should resort immediately to the use of the Hypophosphites of Lime and Soda. "Winchester's Genuine Preparation" (in simple syrup), in extra large bottles, is "chemically pure"; is the combination proposed by Dr. Churchill "for general use"; and is prepared according to his original Formula.

For sale, Wholesale and Retail, by HENRY FESS, Jr., Milwaukee, who is authorized to supply THE TRADE at New York prices.

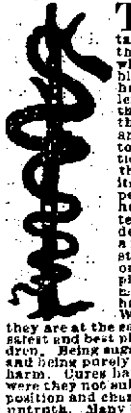
Ayer's Cathartic Pills.



THE SCIENCES OF CHEMISTRY and Medicine have been taxed to their utmost to produce this best, most perfect purgative which is known to man. Innumerable proofs are shown that these Pills have virtues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the vital activities of the body, remove the obstructions of its organs, purify the blood and expel disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organ into their natural action and impart healthy tone with strength to the whole system. Not only do they cure the every-day complaints of every body, but also formidable and dangerous diseases that have baffled the best of human skill. While they produce powerful effects, they are at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many eminent clergymen and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fellow-men.

The Agent below named is pleased to furnish gratis my American Almanac, containing directions for their use and certificates of their cures, of the following complaints: Costiveness, Bilious Complaints, Rheumatism, Dropsy, Heartburn, Headache arising from a foul stomach, Nausea, Indigestion, Morbid Inaction of the Bowels and Pain arising therefrom, Flatulency, Loss of Appetite, all Ulcerous and Cutaneous Diseases which require an evacuant medicine, Scrofula or King's Evil. They also, by purifying the blood and stimulating the system, cure many complaints which it would not be supposed they could reach, such as Deafness, Partial Blindness, Neuralgia and Nervous Irritability, Derangements of the Liver and Kidneys, Gout, and other kindred complaints arising from a low state of the body or obstruction of its functions.

Do not be put off by unprincipled dealers with some other pill they make more profit on. Ask for AYER'S PILLS, and take nothing else. No other they can give you compares with this in its intrinsic value or curative powers. The sick want the best aid there is for them and they should have it.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Additional by the North America.

ST. JOHNS, Aug 18—9 P. M.

FRANCE.—The Emperor after reviewing the troops destined for Syria, addressed them as follows: "Soldiers, you leave for Syria; France hails with joy an expedition, the aim of which is to cause the rights of justice and humanity to triumph. You do not go to make war against a foreign Nation, but to assist the Sultan in bringing back to obedience his subjects who are blinded by the fanaticism of a former century. In that district you have great reminiscences. Fulfil your duty; show yourselves worthy children, who once previously carried into that country the banner of Christianity.

You do not leave in great numbers, but your courage and prestige are a supply to the deficiency, because wherever the French flag is seen to pass the nations know that a great cause precedes it, and great people follow it

The Emperor has given 30,000f. in aid of the fugitives from Syria.

The semi-official correspondent is inclined to think that the interview between the Emperor and the Queen of Spain, which has been spoken of, will not take place.

The Bourse is quiet.

Thirty thousand Christian women were sold at 25 piastres a piece, and were detained in harems.

The Beaufort sailed from Marseilles, on the 9th, with 1,000 men, for Syria.

NAPLES AND SICILY.—No movement reported. The Paris Patrie says, that Garibaldi, in a letter to the King of Sardinia, said he considered it a sacred duty to deliver Venetia, and that the possession of a powerful navy like that of Naples would enable him to do it.

Provisions were excessively dear in Sicily. A duty on salt, approved by the Dictator, but was said to be very unpopular.

ITALY.—General Lamoriciere had suppressed a demonstration in favor of Garibaldi at Lodi He had levied a war contribution of £44,000 and taken the leaders prisoners.

Letters from Parliament dated 21 of August report that some parties had been trying to create trouble. Hitherto the government had acted with a certain generosity, but it has now a great number of prisoners of all classes, and has sent them off with passports to any country out of Italy.

The Council of State are discussing at Naples, the progress of Leatoria Romans.—The queen's mother is to leave instantly if the programme is accepted.

MESSINA, Aug. 8.—Garibaldi has not yet left for the main land, but still continues his preparations.

LONDON, 10th.—A correspondent at Naples writes, on the 4th: Appeals to arms have been publicly posted up. The reactionary party at Galta hesitate, in the presence of the attitude of the country, and are alarmed at the very populace, which was formerly its instrument. The court, however, has the zeal of the populace, and of the inferior classes, in its favor.

A recent interview between the Kings of Denmark and Sweden gave rise to a report that the Scandinavian Kingdom intended to form an alliance against Germany. The Swedish press, however, combats the idea of any aggressive policy, and the Swedish people are represented to be decidedly opposed to anything of the kind.

The coronation of the King and Queen of Norway took place on the 5th inst., in the Cathedral of Dronthier.

From the Plains.

INDEPENDENCE, Mo., Aug. 20—9 P. M.

The New Mexican mail with dates to the 5th inst., arrived this evening.

There is a great excitement in Santa Fe.—The Navajo Indians made an attack upon a little settlement eleven miles below and killed two men and drove off all their stock. There was only eleven soldiers in Santa Fe; they were sent in pursuit of the Indians in a wagon A party of citizens were also sent out and overtook the Indians and recovered the stock, but failed to pay for it, and owing to the cowardice of some Mexicans, three of the party were killed and five wounded; two have since died.

They fought entirely with arrows, and only retreated when their arrows gave out. Had the entire party taken part in the fight, not one man could have been killed, but the entire Indian force would have been killed or captured on the same day.

The Indians ran off sixty head of cattle from a town five miles below Santa Fe.—They also took thirteen head of government horses, and succeeded in making good their escape.

There had been over 400 arrests at Damascus of persons implicated in the late horrible massacre. Immediate trial was had of all culprits, and those found guilty were speedily executed.

The Cunard line of freight steamers is to be suspended until the re-commencement of the busy shipping season

The Militia will be the last of this season, and will leave Liverpool for Halifax on Tuesday, September 4th.

GRAND CHANCE TO SECURE A HOME upon such terms that any one who has any industry can do it. Mr. Glidden, who owns one-half of Lockwood & Glidden's Addition, has made me his agent, to sell his lots in said Addition, at unusually low prices, to any one who will improve them, and upon such terms that any one can meet the payments. It is unnecessary to go into argument to convince one who has any judgment that this property, which is situated in the First Ward, must, and will be the most desirable residence property in the city of Milwaukee. It is in full view of the Lake and on high ground which overlooks the city, and a more healthy situation cannot be found. Its location for business men is very desirable, the Horse Railroad passing through it every fifteen or twenty minutes. Much more could be said about this valuable property, but we will only say, any persons who have any desire to purchase any of said Lots, if they will call at my office they can see a map, and I will go with them and show them the Lots, and they can judge for themselves. The terms on which said Lots will be sold are as follows: Ten per cent. in twelve months; 15 per cent. in two years: and 25 per cent. every year thereafter until the amount is paid, with interest at the rate of 7 per cent. per annum, interest not to commence until six months after the date of purchase. Here is a chance never before offered, and there is every reason to believe that this property will advance 100 per cent. in less than twelve months. The great advantage of the Horse Railroad must, and will make it very desirable The Lots are free from all encumbrances whatever. Certificate of title will be furnished to any one who may purchase. CHICAGO MONEY MARKET.—The *Press & Tribune* of this morning contains the following:

Exchange was close to-day at quotations viz: ½ ₩ cent premium. The demand for it the past forty-eight hours from the neighboring cities has been enormous. To-day parties found it difficult to get all they wanted at ½, but that remained the current rate to the close. City customers were of course supplied, but country bankers did not get all their orders filled, though full selling rates were offered. Not only is the demand heavy from neighboring cities, but the "shave-rag" gentry are in the market, and very soon their operations will have a very decided effect upon the exchange market. It is an outrage that the surplus of our splendid crop should be invested in State bonds, to further dilute the currency of the West, instead of coming to the country in the shape of real money. But at present there is no law to prevent it

The fall in exchange has brought in a perfect deluge of currency: every Illinois bill in the neighboring States will be be sent home, as its value has so suddenly appreciated under the stimulus of the moving crop.

The buying rates of exchange to-day are ¼@⅜. Gold, selling, 1 ₩ cent premium; buying rate ¼.

The money market is decidedly active; but it is still well supplied.

The wheat market opened very actively to-day, some 20,000 bus changing hands early at 85c for No. 1 spring in store, and 83c for No. 2, but before the meeting on 'Change a decline of 2c took place. Sellers pressing their stocks on the market at the reduced prices, shippers endeavored to get the market down 3c lower, offering only 80c for No. 2, but were not successful, the New York report being more favorable than the decline in the forenoon had lead many to expect. The market closes, therefore unsettled, with buyers and sellers 2@3c apart. Club, and Extra sold at from 87 to 93c delivered. The decline and depression in the market were occasioned by reports of continued large receipts at Chicago, and a heavy decline in that market both on Saturday and to-day. There was nothing of any account done in flour. Prices nominally 25c lower. A small lot of a brand which brought $5 towards the close of last week sold at $4,75. Coarse grains quiet and unchanged.

Grain freights are very firm at 9½@10c for wheat to Buffalo. We note charters of the schooners *W. H. De Witt* and *Norway* to Port Colborne with wheat at 10c, the bark *Danube*—a large vessel—to Buffalo at 9½c, and the schr. *G. D. Norris* to Oswego at 15c.

WHEAT FROM THE SOUTH.—Forty cars, or about fourteen thousand bushels of wheat arrived here to-day by the Mil. & Chicago R. R., nearly all from Northern Illinois. The Racine & Mississippi R. R. Company are now pursuing the right policy in carrying wheat to Milwaukee at the same rates that the Chicago roads are to that city. It is in the power of the R. & M. R. R., by adhering to the policy they have so auspiciously inaugurated this season, to turn an immense amount of wheat this way that would surely go to Chicago under the old freight arrangement, and thus deprive them of an important source of revenue, while Racine could reap no benefit from it. It is great foolishness on the part of the Racine people to think because a large amount of wheat is passing their door on its way to the Milwaukee market, that by *tearing up the track* or *pulling down bridges* they could turn that wheat into their own market. If shut off from Milwaukee, the bulk of the wheat that is now coming here from that direction would necessarily go to Chicago, and the Directors of the R. & M. R. R. would have a less favorable report to make at the close of the year by a good many tens of thousands of dollars than will be the case if they continue the policy they have recently adopted. If the Racine wheat dealers pay the full market price for wheat, they will get full as much as if the freight to Milwaukee were double what it now is.

Comparative Prices of Wheat at Milwaukee and Chicago.

The following statement exhibits the comparative prices of Spring Wheat in the Milwaukee and Chicago markets during last week:

	At Milwaukee.		At Chicago.	
	No. 1.	No. 2.	No. 1.	No. 2.
Monday	90c	88c	85@89c	80@84½c
Tuesday	89@90	88	87@87½	81@82
Wednesday	90	88½	86@87½	81@82
Thursday	90	88	85@87	81@82
Friday	88@90	88	84@85½	80@81
Saturday	85@87½	80	80@85	77@80½

As the standards of inspection are nominally the same in both cities, here it will be seen is an average difference in prices for the week in favor of Milwaukee of 2½@3½c on No. 1 spring wheat, and 5½@6½c on No. 2. These figures disclose one of the reasons why so much wheat from Northern Illinois is now seeking our market.

RECEIPTS AT ST. LOUIS.—Receipts of flour and grain at St. Louis last week were as follows, according to the *Merchants Exchange Reporter*: By river—4,023 bbls flour, 33,504 bus wheat, 74,702 bus corn, 20,534 bus oats, 5,720 sacks rye, 781 sacks barley. By railroad—4,931 bbls flour, 3,071 sacks wheat, 1,332 sacks corn, 7,467 sacks oats, 455 sacks rye, 60 sacks barley.

THE GRAIN CROP OF THE UNITED STATES FOR 1860.—The New York *Times* estimates,—basing its calculations on statistics of former years—that the aggregate grain crop of the United States for 1860 will reach the enormous amount of *thirteen hundred millions* of bushels, as follows:

	Bushels.
Indian Corn	900,000,000
Wheat	160,000,000
Oats	150,000,000
Barley, Rye, Buckwheat and Rice	40,000,000
Potatoes (common and sweet)	120,000,000

The *Times* adds:

Here is the enormous amount of fourteen hundred millions of bushels of breadstuffs of various kinds, all of which is food for man if he chooses to use it, but as there is enough for two hundred millions of people, and we have only thirty, it is obvious the greater part must be applied to other purposes. Commerce must be employed upon it.

Of wheat, there is much less to spare than is commonly supposed, but still more than the foreign demand generally requires. In this year we can spare thirty millions, and we cannot spare more without consuming more indian corn in bread. But the latter is almost indefinite, and full half the American nation is as ready to eat corn as wheat bread. An extra demand for wheat flour is met by using Indian corn for the domestic consumption.

The great question is, what is to be done with Indian corn? It would be used for manure if it were not most happily provided that the great staple of the country may be employed in various uses. Corn is used for both man and beast. Not only this, but it is used for nearly all animals, and is manufactured into whiskey. However great the corn crop, there is always a demand for it. Then the growth and consumption of this staple forms a large element in the internal commerce of the country. New York City, for example, furnishes a market for 150,000 beeves. They have consumed three millions of bushels of corn.

The hogs which enter into commerce have consumed fifty millions of bushels of corn. The statistics of Ohio show that in that State ten millions of bushels were consumed by fat red hogs, ten millions more made into whiskey, five millions exported, and the domestic animals of the State have consumed the residue.

From the general testimony, from all parts of the country, we have a right to conclude that the crops of 1860 are uncommonly good, and, from the facts we have stated, it will be the largest ever raised in this country. It is evident there will be a demand for it. The only question is—how far that demand is to come from the foreign or the domestic markets. The European accounts indicate rather short crops—certainly not full ones. In that case the foreign demand will be increased, and the prices kept up to a fair point. On the other hand, if there is no increase of the foreign demand, the prices will fall; but, a use will be found for the grain in the country. The immense number of domestic animals furnishes a ready mode of turning corn into meat, which Europe always needs. In any event, the internal commerce of the country will be greatly benefitted by the abundance of grain. The small traders, the factory men, the laborers will be prosperous, while the railroads, steamboats, and common carriers of all kinds, will find abundance to do. The blessings of good harvests descend upon all classes of the community.

CHICAGO MARKET, AUGUST 18TH.—GREAT PANIC AND HEAVY DECLINE IN PRICES.—The following shows the receipts of flour and grain at Chicago, Saturday, and sources of supply:

In reference to the market the *Press & Tribune* says:

The receipts of all kinds of grain to-day amounted to 285,119 bushels—of which 154,637 bus were wheat, and 107,263 bus corn. The shipments of wheat posted on 'Change amounted to 52,150 bush. The shipments today, up to 5 p. m., amounted to 247,369 bush wheat, and 135,200 bush corn—including flour and oats makes a total of nearly 400,000 bush—*the largest amount of grain ever shipped from this port in one day*.

The Glasgow was telegraphed this morning with Liverpool dates to the 5th inst., reporting Breadstuffs quiet, with an advancing tendency. This news, however, had no effect to check the decline in wheat and corn. The wheat market opened quiet at yesterday's closing quotations; but as soon as the receipts were posted, buyers held off, and holders became panic-stricken—prices speedily declining 4@5c per bush on Spring grades. The demand was principally for shipment, which would doubtless have been greater but for the scarcity of vessels; and about 125,000 bush was taken at 80@85c for No. 1 Spring; 77@81½c for No. 2 Spring; and 71½@74 for Rejected Spring—the market closing quiet at the inside quotations. Winter wheat was dull and 5c lower—with sales at 95@91 for No. 1 Red and 85@87½ for No 2 Red. Flour was very dull and prices declined 5@10c—sales of choice spring extra being made at $4,50@$4,60 The heavy supply of corn depressed the market very materially, and we have to note a further decline of 2c ₩ bu. About 95,000 bush were sold at 37@37½c for No. 2 canal afloat; 36@37c for No. 1 in store; 35@36c for No. 2; and 31@32 for Rejected. At the close there was quite a speculative feeling in corn, and about 40,000 bush were sold, for delivery next ten days at 35c for No. 1 in store. Oats declined 1c and closed dull, with sales of 14,000 bush at 15@15½ for No 1 in store, and 19½@20½ afloat. Rye declined 1c, with sales of about 45@50c on track, and 47c in store for No. 1. Barley quiet and nominal. Timothy seed is in good supply and 10c lower. Sales of good being made at $2 50@$2,55

Freights remain firm with very few vessels here.—One propeller was engaged at 10c for wheat to Buffalo and 3 sail vessels at 9½c for corn Port Sarnia, 9c for wheat to Buffalo, and 15c for wheat to Kingston.

MARINE ITEMS.

THE GRAND TRUNK FERRY HURON.—The Detroit *Tribune* says the swing mode of propulsion of the Grand Trunk Ferry *Huron* not working satisfactorily, she is now running in tow of the steam ferry *Michigan*. By this change, vessels coming in from Lake Huron under a free wind will be relieved of a pregnant source of danger.

THE steamer *Forester*, while on her way down from the Lake Shore to Detroit on Friday, broke her shaft, and was towed to port by the steamer *Columbia*.

VESSEL SALE.—Messrs. LAYTON & PLANKINGTON have purchased the schooner *W. J. Whaling* for the sum of $12,000. The *Whaling* carries 15,000 bushels wheat, and is rated by the Underwriters as "A 1." The purchase is regarded as good one for the buyers.

NOTICE TO MARINERS.—The entrance to Grand River, Fairport, Ohio, having become entirely closed to navigation by the extension of a sand bar from pier to pier, the beacon light at that place is temporarily discontinued. Due notice will be given of the removal of the obstruction, and of the relighting of the beacon.

By order of the Light House Board.
CHARLES GREEN.

Buffalo, Aug. 16.

BUSINESS OF THE ST. MARY'S SHIP CANAL.—From the statement of the business of the Saut Canal, to be found below, it will be seen that the shipments of copper in the month of July were 2,791 tons, and the shipment of iron ore was 34,572 tons. Total estimated value of all articles passed through the canal in that month was over a million and a half of dollars. The number of passengers that went up and down during the same time was two thousand nine hundred and fifty seven.

The immense importance of the Lake Superior trade may be judged of from this statement of the business for a single month. One can hardly realize the changes that ten years have worked —*Com. Advertiser, Aug. 15.*

LAKE VESSEL ABANDONED AT SEA.—The bark *Magenta*, of Green Bay, Hopkins, from Boston July 7th, for London, was abandoned at sea July 22nd, and the crew had arrived in Liverpool early in August. She had on board 1,155 bbls flour, 4,825 bags oil cake, and 3,128 gallons sperm oil. The *Magenta* was built, at Green Bay in 1859, was 453 tons, rated A 1½, and is owned by A. S. Godfrey. She sprung aleak on the 22d, and was abandoned on the 27th; crew and officers taken off by the *Roderick Dhu*, which reached Liverpool on the 2d inst. She is said to be fully insured in Boston.

The *Magenta* was built expressly for the ocean trade, and was a beautiful and in every respect a superior craft. She was worth about $20,000.

This makes the third of ocean-lake fleet that has been lost at sea since the inauguration, in earnest, of the trade, which occurred in in the spring of 1857; the others being the *Col. Cook*, in the Gulf of St. Lawrence in 1858, and the *Republican*, of Huron, O., lost off the coast of Florida last spring.

Zimmermann of the County of Milwaukee, as mortgagor, executed and delivered to John Plankinton as mortgagee, a mortgage bearing date on that day, which mortgage was duly acknowledged, so as to be entitled to record, and was recorded in the office of the Register of Deeds for the County of Milwaukee, in the State of Wisconsin, on the 22d day of May, A. D. 1856, at 2 o'clock P. M. of said day, which mortgage was given to secure the payment by said mortgagor to said mortgagee, of the sum of nine hundred and seventy five dollars, as follows, to-wit: two hundred and forty-three 75-100 dollars one year after the date of said mortgage; two hundred and forty-three 75-100 dollars two years after said date; two hundred and forty-three 75-100 dollars three years after said date; two hundred and forty-three 75-100 dollars four years after said date, with interest on each of said sums payable annually at the rate of seven per cent per annum till the principal sum is due, and thereafter at twelve per cent till paid according to the terms of four promissory notes being even date with the said mortgage, and executed by said Charles F. Zimmermann, and payable to said John Plankinton or order.

And whereas said mortgage contained the usual power of sale, in case of the non payment of the sum secured thereby, or any part thereof:

And whereas the said John Plankinton is still the lawful holder and owner of said mortgage and claims that there is now due to him thereon the just and full sum of eight hundred and twenty-three dollars and forty-four cents:

And whereas default has occurred in the condition of said mortgage by the non-payment of the above mentioned sum of money, being a part of the moneys secured by said mortgage to be paid according to the terms thereof:

And whereas no action or proceeding has been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof:

Now, therefore, notice is hereby given that said mortgage will be foreclosed by a sale of the mortgaged premises, or such part thereof as may be necessary to be sold to satisfy the amount due on said mortgage, with interest and cost, and expenses; that such sale will be at public vendue, at the door of the Court House in the City of Milwaukee, in said County of Milwaukee, on the 29th day of September A. D. 1860, at 2 o'clock P. M. of said day, and will be made by the Sheriff of said County of Milwaukee, to the highest bidder, in pursuance of the power of sale contained in said mortgage and of the statute in such case provided.

The following is a description of the mortgaged property substantially as the same is contained in said mortgage, to-wit: Lots No. seven (7), eight (8), nine (9), and ten (10), in block No. sixteen (16) in Plankinton's Addition to the Sixth Ward of the City of Milwaukee, the same being in the present Ninth Ward of said city, in the State of Wisconsin.

Dated August 14, 1860.

The firm of OGDEN & WALL is dissolved. I will at present occupy the same office for real estate purposes, and attend to all business, such as obtaining loans, selling mortgages, and renting houses. Insurances can be obtained in first class Eastern Companies at current rates. In the course of two weeks I intend to make my annual report of the improvements which are now going on in the various Wards of our city. The impression with some is that no improvements are going on, which is a mistake. Milwaukee city is yet alive and going ahead, and will continue to do so. Never was there such an opportunity for capitalists to invest money, as now offers. One thing I would request: all who have made contracts for buildings will please inform me, so that I can report the same. CALEB WALL,
